Excursion to the Moorina Power Station
Sunday 14 October

Twenty eight members of the LHS enjoyed a memorable day in the Moorina/Derby region. We were given a tour of the Moorina power station by Co-owner, Mike Cook. We were able to see the large turbine machines in the powerhouse and to wander outside to admire the penstock and water race, above and below. The old machinery is an amazing sight, built in 1909, and still in operation.

We visited the old cemetery at Moorina, where we saw the memorial to the Chinese miners who formed an important part of the regions' mining and social history.

After lunch at the Derby Tin Mine centre, we set off to look through the Derby Tunnel. We were met by Bill Thorne, who guided us through the 2,000 foot tunnel.

We drove off to Branxholm to meet with Eileen Edwards who guided us along an impressive section of the Great Briseis Water Race.

Homeward bound, we diverted course to inspect the spectacular tree carvings at Legerwood. The carvings, cut into the remnant trunks of large pines previously forming an ANZAC Avenue of Honour, now remain a continuing memorial to the ANZACs from the local region. Climbing back on the bus, we arrived back at the museum a tad after 6pm, happy after such a good day. All thanks to Nic Haygarth for organising such a great excursion.

North Esk panels

The North Esk historical interpretation panels in the reserve at Hobler’s Bridge Road were unveiled by The Hon Don Wing MLC and presented to the then Mayor Ivan Dean on behalf of the City of Launceston, by the Historical Society on Friday 19 October. The wind-blown ceremony was followed by morning-tea at the Northern Tasmanian Netball Centre. The Hon. Don Wing, MLC and Anne Bartlett (Co-Ordinator of the Sub-Committee) are pictured examining the panels.

These panels depict the history of the North Esk River from exploration and early settlement, including industries, railways, the powder magazine, recreation, and properties in the village of St Leonards: Dunedin, Mount Esk and Ashfield.

Assisted by the North Esk Landcare Group, Society members who helped collate the information depicted on the panels are Anne Bartlett, John Dent, Peter Cox, Jill Cassidy and Marita Bardenhagen. Next time you take a stroll, cycle or walk your dog along the North Esk River Walk, pause to reflect on the history of this area.

An article on the opening was published in The Examiner on Saturday 20 October 2007, page 14.

The Wreck of George The Third

On 21 October Michael Roe presented an interesting talk examining the demise of the convict transport George The Third which, after a harrowing voyage from England, struck a rock in the D’Entrecasteaux Channel in 1835. Prof Roe is seeking more information on the survivors of the wreck, two of whom were James Ferguson and William McKay. A Scottish native, James Ferguson aged 76 died at Launceston in 1896. A farmer, probably at St Leonards, he died from hydatids. William McKay was at Campbell Town in 1840, and one so-called died there in 1865 after languishing from a debility for several years. Are these the same convicts who were on George The Third and did the latter suffer from the effects of scurvy contracted on the voyage?

After my brother, Bill Sargent, read of Prof Roe’s talk, he sent me the following email:

> Was interested to see the note re George The Third sinking in D’Entrecasteaux Channel. When I sailed on Wasatch in 1993 [celebrating 350 years plus one since Abel Tasman’s voyage to VDL] we saw George III Rock marked on the chart. We looked out for it warily but couldn’t see it. Eventually we realised from the chart legend that it was a submerged rock! And then we realised that we’d sailed right over it!! I suppose the convict ship drew more than Wasatch, but we’ll never know how close we came to joining those 133 souls lost on the George The Third … 😊

Back street architecture in Launceston

Eric Ratcliff’s well attended talk on 18 November focussed on a comparison of residential architecture in Launceston with that of England. The lecture was illustrated by photographs of houses with interesting features. Regrettably, many of those Launceston homes are no longer standing.

Dr Ratcliff is pictured with his wife Patricia.

Launceston Water Supply

A plaquing ceremony was held in Prince’s Square on 23 October 2007 to commemorate 150 years of Launceston’s water supply. The Institution of Engineers Australia, Launceston City Council and Esk Water took part in the ceremony. An historic engineering marker was unveiled to recognize the incredible engineering feat of diverting water from St Patrick’s River via a water race and tunnel to Distillery Creek to a dam above Waverley and piped across the North Esk River at Hobler’s Bridge to brick reservoirs off High Street and Hill Street. The gravity-fed scheme was completed in 1857, with the Mayor, Henry Dowling, opening the sluice gates on 23 October of that year.

Exactly 150 years later the Mayor, Ivan Dean, unveiled a second plaque (pictured) celebrating the scheme which still serves Launceston today. Both plaques were placed in the concrete surrounds of the magnificent fountain in Prince’s Square, which was purchased from a Parisian firm exhibiting at the London Exhibition, and erected in 1858 to celebrate the new water scheme. By 1860 Launceston had public drinking fountains, two fire brigades and work on a sewerage scheme had begun.

**Recent Publications by Members**

**York Town Historic Site.** The West Tamar Historical Society and others have produced this informative pamphlet depicting the site of the first permanent settlement in northern Tasmania. Copies can be obtained from the Parks and Wildlife Service and from the Grubb Shaft Museum. We look forward to the publishing of the long-awaited book on the history of York Town.

**Paul A C Richards & Murray Johnson. Health, wealth & tribulation: Launceston’s Cataract Gorge.** Several LHS members have been involved in the compilation of this fascinating book exploring the icon gorge in the heart of Launceston. Topics from the geology, fauna, flora, aboriginal inhabitants and various aspects of European settlement including convicts, industries, art, leisure and recreation, bridges and tourism, are covered. The LHS members who contributed are: Lynn Blackwood, Jill Cassidy, John Dent, Tom Dunning, Eric Ratcliff, Paul Richards and Barbara Valentine. Books are available for purchase from Paul Richards at Myola House of Publishing 397 Wellington Street SOUTH LAUNCESTON TAS 7249 for $35.00.

**Jai Paterson, A fortune may be made…Launceston’s 19th century breweries.** This is the second in a series of books on local history published by the Friends of the Library, Launceston. Jai traces the history of breweries in Launceston from William Barnes’ Port Dalrymple Brewery established in 1824 to William Henry Abbott’s Phoenix Brewery set up in 1891. James Boag’s Esk Brewery is the only one which survives today. Copies are available for sale at the Launceston Library for $25.00.
Members’ Column

Committee vacancy
It is with regret that the LHS committee has accepted the resignation - due to work commitments - of our correspondence secretary, Jai Paterson. Jai has been an enthusiastic member of the committee and is to be commended for her beautifully crafted letters. Rosalie Kelly has stepped into Jai’s shoes, but now the Society is seeking another committee member to assist. Please let any of the committee members know if you are interested in becoming a part of this vibrant group.

Jenny Gill, our Vice-President, recently attended a national conference in Adelaide ‘SIMPLY THE BEST 2 – Reflections on Women in the Records’. At the three-day conference Jenny presented a paper on Nineteenth Century Female Educators, using many examples from her research into the Dame Schools in Tasmania.

Jill Cassidy – Profile

Jill Cassidy was born in Hobart and educated in Burnie, Devonport and Hobart, graduating with History Honours from the University of Tasmania, followed by a Diploma of Education. After stints at Ogilvie and Brooks High School, she taught history and English at Launceston and Alanvale Colleges.

For 20 years from 1984 she worked at the Queen Victoria Museum and Art Gallery, researching and writing historical reports on Tasmanian industries, curating exhibitions, and becoming the Museum’s inaugural Oral Historian. This latter role led her to initiate the Tasmanian Branch of the Oral History Association of Australia, becoming the inaugural president. She is still involved with this organisation and for some years has been the National Vice-President as well. She is now Honorary Research Associate with the Museum and is pursuing her research into Tasmanian flour mills.

Jill is a member of the Tasmanian Family History Society and served three years as judge of the Lilian Watson Family History Award. She was a founding member of the Launceston Historical Society, and recently has been the publicity officer. She has spoken at several symposia and was one of the LHS members preparing the North Esk interpretation panels, recently launched at the Hobler’s Bridge Reserve.

Recording Research

Do you need to do some interviewing for your research and want to record it? It’s a good way to keep tabs on what you’re hearing, and you might also want to give copies of your interview to the people you talk to.

The Tasmanian Branch of the Oral History Association of Australia hires out a high-quality Fostex digital recorder for just $30 a week (with conditions, including annual OHAA membership of $35). The recorder comes with a set of simple instructions, and allows you to download the interview direct to your computer. You will need access to a PC which runs on Windows ME, 2000 or XP and has a USB connection, or a recent Mac. You can then burn the interview to CD, and also use free software for transcription if required.

Anyone interested should contact Jill Cassidy on 6394 7677 or 0418 178 098 or email at mandjcassidy@gmail.com
Eric Ratcliff presented a paper, *Writing a history of architecture in Tasmania*, on 25 October 2007 at the School of Architecture, UTAS.

Marita Bardenhagen's travelling exhibition entitled 'Ordinary Women, Extraordinary Lives' a pictorial history of Bush Nursing in Tasmania 1910-1957 was on display recently at two conferences celebrating ‘90 years of the Child Health Association and Nursing in Tasmania’ held in Hobart and Launceston. It was also on display at Tresca, Exeter in November. Marita will be taking the exhibition to Smithton in January 2008 and then to Waratah from 26 January.

**Historical Glimpses: Launceston's Cataract Gorge historical seminar** was held at ‘Eskleigh Home’ on 17 November 2007. LHS members who presented talks were: John Dent, Tom Dunning and Paul Richards. The seminar was held in conjunction with the launch by Eric Ratcliff of *Health, wealth & tribulation: Launceston's Cataract Gorge*, and the art exhibition 'Moods of the Cataract Gorge'.

John and Denise Paull were featured in ‘Ali's people’ in *The Examiner* on 3 December 2007, page 17. The title of *Theatre of love* describes the couple admirably. John spoke at a recent Historical Society meeting on his research into Dr William Pugh and his acquaintances.

**New Members**

The President and Executive welcome to our Society the following new members: Sandra Bowdler, Scott Bell, Chris Binks, Noel and Mary Cheetham, Marie Gatenby, Mary Hoggett and Peter Richardson.

**Can you help?**

‘Old Umbrella Shop’
Kim Simpson is registering and cataloguing the collection of umbrellas and other items at the National Trust's 'Old Umbrella Shop' in George Street. He is also documenting the building. Kim is interested in hearing from members who may have information on the Shott family, including the business side of things.

‘Clarendon House’
Volunteers are needed at the National Trust property of 'Clarendon House', 20 minutes south of Launceston. One day a month could be great; the opening hours are 10am to 4pm, seven days a week (closed during Winter months). Duties would include helping out in the Gift Shop & conducting brief tours.

**Aboriginal & Early Settler contact**

*I find the short accounts in 'Way Back When' fascinating and quite addictive reading. I am a visual artist and a descendant of Dalrymple Briggs (c.1812 - 1864) with a committed interest in finding out more about the past, especially early cross-cultural colonial history.*

I am hoping to learn more about interactions between Tasmanian Aboriginal and non-Aboriginal people especially up to 1840 including with pilots, sailors, sealers, stockkeepers, servants, convicts, gaolers, magistrates, police, inn keepers, bushrangers, and of people arriving pre 1830. Some names include: Archer, Captain Barclay, John Batman, Benbow, Brumby, Anthony Cotterell, Cotton family, Thomas Crawley, Edward Curr, Richard Dry, W Fawcett, James Gibson, James Grant, John Woodcock Graves Jnr, Thomas G Gregson, Jonathan Griffiths, Police Magistrate Hargrave, George Hobler, A W H Humphrey,
Robert Jones, Captain A F Kemp, Rev Robert Knopwood, Peter Mills, Captain Moriarty, Dr Jacob Mountgarrett, Captain Nairn, Dr Richard Rowland Priest, Henry Reed, Thomas Reibey, Thomas Scott, Dr John Smith, Malcolm Laing Smith, Governor Sorell, W T Stocker, Thomas, Captain John Townson, William Wentworth, George Whitcomb, John Youl and others.

Also, I hope to learn more of Aboriginal children living with the following families/individuals in the early 1800s including [surnames]: Allan, Batman, Birch, Bray, Bromley, Bunce, Busby, Cameron, Campbell, Connelly, Cox – also Sammy Cox story, Cronan, Davis, Dempsey, Dutton, Franklin, Goldie, Griffiths, Hardwicke, Harman, Harrington, Heaney, Hogan, Holman, Jinkins, Jones, Kerr, Kirby, Landale, Logan, Lucas, Lyttleton, Martin, McCauley, McClure, McSweeny, Morrison, Mountgarrett, Murray, Patten, Pearson, Priaulx, Reibey, Seal, Sherwood, Smith, Tanner, Thornloe, Thomas, Thompson, Titchett/Farum?, Wedge and Weston.

What would be most exciting would be to speak with people regarding any original source material such as letters and diaries/journals and family stories with details of those times and contact with Aboriginal people. I will be in Tasmania January - April 2008 and can travel to meet anyone interested.

Many thanks, Julie Gough, julie.gough@jcu.edu.au

Community, Place and Heritage Research Unit:
Representatives from the West Tamar, George Town and District and Launceston Historical Societies (Peter Cox, John Dent and Marita Bardenhagen) met informally with Henry Reynolds and Anne Fitzgerald to discuss the formation of the new UTAS Community, Place and Heritage Research Unit. This meeting was set to clarify their mission and to discuss the forming of partnerships with the three organizations. It was suggested that students from the unit be invited to speak at our meetings. Projects currently underway include the study of the NorthEastern trails of G A Robinson and the settlement of Norfolk Plains. Early discussions are taking place on the history of the Chinese in Launceston. The Unit is aiming to work closely with the QVMAG and the National Trust and local researchers in the discovery and appreciation of what is distinctive about the North. Commencing in 2008, the Unit is working to support the local publication of Ian McFarlane's North West Aboriginal study and Eric Ratcliff’s history of architecture in Tasmania. The meeting was designed to facilitate research and share resources in the north.

University of Tasmania & Riawunna:
Professor Bill Gammage AM, will present lectures on Galahs in March 2008. When Europeans arrived in Australia, galahs were typically inland birds, quite sparsely distributed. Now they range from coast to coast, and are common. Why did this change occur? Why didn't it occur earlier? The talk argues that because galahs feed on the ground, Australia's dominant inland grasses were too tall, so they relied on an agency to shorten them: Aboriginal grain harvesting before contact, introduced stock after contact. Professor Bill Gammage is a visiting fellow in the Humanities Research Centre, Australian National University, studying Aboriginal attitudes to land and land management from a historical perspective.
